

The University of Strathclyde is running two summer programmes for pupils at the end of S4 & S5 and thinking about going to University. Each week long programme aims to provide a targeted focus on the pupils' chosen area of academic interest, giving them a head start on the road to their chosen career.

Through a series of group activities, you will be able to find out more about the career you are interested in following. In 2016, there are ten areas pupils can choose from, depending on their career aspirations.

Details about the first course are [here](#), and information about the second course is [here](#)

Anyone interested should give their names to their Guidance Teacher, or Ms Cumming in the first instance.
