

# A Day in the Life of an Occupational Therapist

**When:** 10:00am - 15:00pm, Tuesday 18th December 2018

**Where:** Ninewells Hospital, James Arrott Dr, Dundee DD2 1SY

## Considering a career as an Occupational Therapist?

Come along to the careers workshop to hear more about the role, essential skills and speak with Occupational Therapists who practice in local services.

The workshop aims to:

- Provide an understanding of what Occupational Therapists do in their daily work
- Explore the key skills involved in being an Occupational Therapist
- Highlight the diversity of areas Occupational Therapists can work in
- Look at what is involved in the degree course
- Provide an opportunity to experience a taster day at RGU

We will make use of the clinical skills centre, which will allow you to carry out practical activities with volunteer patients in the simulated hospital/ward setting and the kitchen, bathroom and living area of the home setting.

Spaces are limited, so please visit [www.rgu.ac.uk/occupational-therapist-workshop-dundee](http://www.rgu.ac.uk/occupational-therapist-workshop-dundee)

If you have any questions, please contact Lisa Paul on [l.paul1@rgu.ac.uk](mailto:l.paul1@rgu.ac.uk) or 01224 263339.
