

# RMPS INSPIRE/ASPIRE SUCCESS 2013

Students in S1 RMPS have, over the past 3 years been entered into a poster programme which has been inspired by the Olympics. The students have had to explore their character, ideal and values using web based resources as well as writing about an Olympic or Paralympic athlete that inspires them, an analysis of what they want to achieve in their life and a reflection on how they will achieve their goals.

This year we also entered half of the S1's in the new three year programme titled 'Inspire-Aspire, Global Citizens in the Making'. This contained a similar values poster format but was themed on Global Citizenship and explored core values inspired by the Glasgow 2014 Commonwealth Games so that the pupils could write about an inspiring global citizen rather than only an athlete.

The following students from Broughton were shortlisted from over 15,000 applications across the country to receive an award presented by Katherine Grainger and Sir Craig Reedie CBE on Monday 17 June at the Glasgow City Chambers:

### Olympic Poster:

Cameron Smith  
Nathan Young  
Rachel Doherty

### Global poster

Faithful Bentoro  
Caroline Hughes

The pupils seemed to have had a great time and experience admiring the City Chambers and meeting Katherine Grainger. Although they did not come 1st, 2nd or 3rd they did remarkably well to get to this stage given the number of entries and they each received a National Finalist certificate. **Caroline Hughes** and **Cameron Smith** were also awarded certificates for being the best entries from Broughton High School.

.....

Katherine spoke for a few minutes and talked about how important it is to strive for your goals and believe in yourself even though at times you may think that you will not be able to do it as she proved having won 3 silver medals at previous Olympic games but finally attaining Olympic gold in Britain in the 2012 games which was an excellent message for all the pupils to take away.
