What Is The White Poppy?

- The white poppy is a symbol of remembrance and peace, worn as an alternative or complement to the red poppy for Remembrance Day.
- Distinguishing features of the white poppy include that it offers remembrance to all victims of all wars, from deaths of the British and US Armed Forces, to innocent civilian casualties in the Middle-East, and of course many more.

The White Poppy

- The White Poppy is about opposing war itself. It aims to promote peace in the future.
- White & Red Poppies will soon be available around school by a group of sixth years. Any donation you are able to make is very welcome.
