

The Rencontres Théâtrales 2015 which have taken place in Broughton High School in Edinburgh was a very enjoyable event. We could see that all the pupils were very thrilled and proud to perform their plays.

It all started with a high standard of French language performance with clear pronunciation called “Un petit tour de France” from George Watsons College which was enhanced by a very original story that was brought in cultural aspect.

Followed by a very enthusiastic performance “Elmer” from Doune Primary making a good use of repetition to improve language and involve all the children along with a good interpretation of the story.

Gracemount Primary’s performance “Le Gruffalo” made a good use of music and included live performance while involving all the children in the story.

Ratho Primary's performance "Les animaux et le football" was very original because it was obviously pupil led with a great atmosphere and a good use of humour, props and costumes.

The second performance from Ratho Primary "Les informations" concluded the first category with very entertaining and varied little humoristic plays within the play thus including all children.

Our judges were very impressed by the enthusiasm and energy of pupils playing on stage in French. Every school won a “French Institute bag” packed with French books, DVDs, CDs. **A special thank you to the Franco-Scottish Society of Edinburgh which awarded the first prize cheque of 100£ to George Watsons College and the European bookshop which offered French books to all schools.**
