

'The Slide' at Broughton High School on Wednesday 13th June 2018 (8.30 -10.20 am)

'The Slide' is a film, produced and directed in Edinburgh, which depicts a young boy's slide into serious organised crime from the age of 13 - 20.

The film is split into 5 scenes, each shown individually, with young people then given the opportunity to have a group discussion after each scene. The discussions will be facilitated by Police Scotland.

The main aim is to educate young people about the dangers of Serious Organised Crime (SOC) and emphasise how easy it can be to become involved if poor decisions are made. The package will be 'rolled out' across Scotland after this event - available for schools, youth groups, community groups, etc. It is a package that can be delivered not only by police officers, but also teachers and those working with young people.
