

Applications are now open for University College London's free Residential Summer Schools!

For successful applicants, UCL will cover the cost of travel (including flights if necessary), accommodation and food for the full week.

We would love to receive applications from high achieving S5 students from Broughton High School.

Our Residential Summer Schools allow students to experience university life, explore academic study and receive support and guidance around personal statement writing and applying to university. A flyer is attached to this email; please share this with your S5 students.

Please find dates and subjects of each Residential Summer School below:

Week One Summer Schools: 22nd - 26th July 2019

English
Laws
Maths and Computer Science
Modern Languages
