

Vision In KidS(VIKS)
NHS Nursing Insight Day
Saturday 30th March 2019
Western General Hospital, Edinburgh

Dear Head Teacher, Deputy Head Teacher

We wish to offer the opportunity for your school students to attend a Work Experience Programme on Saturday the 30th March 2019 at the Western General Hospital, Edinburgh

The NHS Nursing Insight Programme Day, organised by [Vision In KidS\(VIKS\)](#) and supported by Lothian Health, aims to provide an insight into the varied nursing careers and working opportunities for pupils from the secondary school years who wish to [experience](#) the world of work in the Health Service. This programme aims to provide a broad outline of Nursing in the Health Service.

Our aim is to provide a varied and broad [programme through](#) a combination of talks, video presentations as well as importantly hands on experience through the workshops for the students. The careers that we outline will be suitable for graduate as well as non-graduate career paths, for students of all abilities so there will be something for everyone who has an interest in careers within Nursing. We wish to offer this for S2 students although other years (S3 - S5) may be considered. However, we anticipate high interest from many other schools and is likely to be over-subscribed. Attendance is free but registration is required through the nominated school lead/head/deputy.

If you wish to make any further enquiry about this programme AND to book spaces for students please contact Louise McAtamney, Employability & Work Placement Administrator: louise.mcatamney@nhslothian.scot.nhs.uk

With best wishes

VIKS Team
